The Wireless Router 300N X3 makes it possible to wirelessly share files and broadband Internet access, as well as the peripheral devices attached to the desktop PC's and notebooks in your network. This 300N router guarantees optimal performance with demanding applications, such as HD video and audio, VoIP, multiplayer gaming and the transfer of large amounts of data with speeds up to 300 Mbps. Thanks to the WPS hard button, you can establish a secure wireless connection with just the push of a button. The 3 internal antennas reduce "dead spots" and guarantee an optimal coverage on all the floors of the house including the garden and home-office.

**10 YEARS WARRANTY**  
 BY MANUFACTURER

**WIRELESS x3** |   
 Internal High Performance Antenna Technology

3x Internal High Performance Antennas 

The WL-342 Wireless Router 300N is equipped with three integrated High Performance Antennas to strengthen the range of the wireless network. The three internal antennas reduce "dead spots" and guarantee optimal coverage on all the floors of the house including the garden and the home-office.
